

A Football focused extra mural

for all children between the ages of 2 to 6 years, which consists of a

balanced, fun & fully interactive

coaching program.

Our Vision

We aim to provide a player development environment, that is educational, fun and interactive, that will build a passion for the game. Providing a quality coaching program that supports the players individual development, preparing them for their futures, both on and off the field of play.

Coached in the Soccer Bees Way!

Our Mission

To provide a positive, safe and professional coaching environment that will encourage an early understanding and a lifelong interest in the game. Supported by a coaching program that will equip the players with the skills to excel technically, physically and psychologically in all areas of the game. Instilling positive values and sportsmanship in the Soccer Bees way. **Keeping players in the game for longer!**

It's not just **soccer training...**

its a program that was developed to improve

**COORDINATION, Fitness, Balance, Motor skills,
& CONCENTRATION**

while teaching the fundamentals of soccer.

Buzy Bees

A key element to our program is learning through open play where each child has their own soccer ball. Open play allows all the players to play freely with no restrictions while practicing their kicking, passing, dribbling, and shooting skills. This helps to improve their balance and movement with or without the ball, as well as eye and hand co-ordination.

The sessions are fun filled and fully interactive, with exercises that assist with improving their general co-ordination, spatial awareness, and gross motor skills in a fun and interesting way.

Active Bees

The sessions are designed to create a more competitive environment for the players, that will help them understand the dynamics of team-play and learn the basics of mini soccer matches. In turn, developing a healthy appreciation for team play with positive sportsmanship like behaviors.

Our sessions encourage all the players to use their own imaginations for problem solving and decision-making. During the sessions the level of difficulty increases which allows the players to develop a well-rounded understanding of what they need to achieve in the session.

Outcomes:

- Improved kicking habit and balance with the ball.
- Increased concentration and quicker thinking with the ball at their feet.
- Understanding of teamwork and better social skills.
- Relationship building with the coaches as well as other players within the group.
- Develop a love for the beautiful GAME.**

Outcomes:

- Using both right and left foot with improved accuracy.
- Improve first touch with better control of the soccer ball.
- Help develop a strong sense of identity within the group.
- Confident enough to play mini matches with the ability to assess the field before passing.
- Head start to join another football club.**

Why choose Soccer Bees...

Soccer Bees is a grassroots program designed to coach every player the fundamentals and basics of soccer to help improve their soccer skills in a fun and interactive way. A key part to our program is open play, where each player has their own soccer ball at the start of each session. Starting the sessions this way captures the children's attention, making them more open to learn the **Soccer Bees way**. This allows the players to play freely amongst themselves, be creative and build excitement for the remainder of the session, by creating the best possible environment for players to learn and develop at their own pace with age-appropriate drills and exercises performed in the sessions.

After all, learning through play is a key element in developing new soccer skills at an early age.

Our coaching methodology is focused around building a meaningful and supportive relationship between the players and coaches, offering constant guidance, encouragement, promoting relationship building, teamwork and sportsmanship.

All our sessions are coached by experienced and enthusiastic coaches that have been trained to coach in the Soccer Bees way.

**Developing a passion for the game
at an early age....**

Keeping players
in the game for longer!
